Avoidance and Adaptation

Farming chief calls for 'net zero' agriculture emissions in UK by 2040

Net Zero*

- Nutrient efficiency
- Feed conversion
- Manure emissions
- Carbon stores
- Renewable energy

Precision a public good

Resilience Measures

Integrated Systems

NFM 13,000m²

Constructed Wetlands

Rainwater Harvest

5,300m²

Aquifer Storage and Recovery

**BRITISH FARMERS
ARE PROUD TO
PRODUCE YOUR FOOD**

Take Home Messages

- Precision Farming for Resilience
- Resilience a business driver and public good...
so how do we incentivise more?
- Transformational change?
